CALIFORNIA LEGISLATURE—2011–12 REGULAR SESSION

ASSEMBLY BILL

No. 972

Introduced by Assembly Members Butler and Beall
(Coauthor: Assembly Member Mitchell)

February 18, 2011

An act to amend, repeal, and add Section 11834.02 of, and to add Section 11833.05 to, the Health and Safety Code, relating to alcoholism or drug abuse treatment.

LEGISLATIVE COUNSEL'S DIGEST

AB 972, as amended, Butler. Substance abuse: treatment facilities.

Existing law provides for the licensure, certification, and regulation of alcoholism or drug abuse recovery or treatment facilities serving adults, administered by the State Department of Alcohol and Drug Programs. These facilities are defined to mean any premises, place, or building that provides 24-hour residential nonmedical services to adults who are recovering from problems related to alcohol, drug, or alcohol and drug misuse or abuse, and who need alcohol, drug, or alcohol and drug recovery treatment or detoxification services.

This bill would, until January 1, 2017, revise the definition of an alcoholism or drug abuse recovery or treatment facility to include a facility that provides a prescribed medical program exclusively to residents of the facility and that is accredited by a nationally recognized accrediting organization.

Existing law requires the department to charge a fee to license alcohol or drug abuse recovery or treatment facilities. Existing law establishes the Residential and Outpatient Program Licensing Fund, consisting of specified fees, fines, and penalties. Under existing law, money in the fund, upon appropriation by the Legislature, is available to support the department's licensing and certification activities.

This bill would require the department to charge an alcohol or drug abuse recovery or treatment facility a reasonable fee for the initial license and for extension of the license, calculated every 2 years, as prescribed. This bill would prohibit the department from levying a fee for licensure of nonprofit organizations or local governmental entities for these purposes. *The bill would require legislative approval of new fees.* This bill would also authorize the department to charge a specified fee for licensure or certification of a facility that provides a prescribed medical program exclusively to residents of the facility and that is accredited by a nationally recognized accrediting organization.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
